

# Placement of Peripherally Inserted Central Catheters

This workshop will cover the proper technique for placing PICC lines. It will also discuss the care and maintenance of the lines as well as which patients are best suited for this method of venous access. The workshop will be an excellent opportunity to share ideas and gain insight from your peers through expert interaction and case discussion.

Cook Medical—Advancing education and collaboration to improve patient care.

## Agenda

- 09:30 - 09:40 Welcome
- 09:40 - 09:50 Aims and outcomes
- 09:50 - 10:20 Choosing the correct device
- 10:20 - 10:50 Basic ultrasound/tips and tricks
- 10:50 - 11:10 Consent
- 11:10 - 11:30 Coffee break
- 11:30 - 12:10 Anatomy/vein selection (practical session)
- 12:10 - 12:20 Tip position/chest X-ray/IC-ECG
- 12:20 - 12:45 Vein puncture
- 12:45 - 13:00 PICC insertion theory
- 13:00 - 14:00 Lunch
- 14:00 - 14:50 PICC insertion on phantom
- 14:50 - 15:50 Complications/care and management of PICC
- 15:50 - 16:00 Evaluation and close
